HEALTH ENROLLMENT CONSENT / NOTIFICATION FORM

Student's Name _____ Date of Birth _____

School/Grade _____ I.D.# _____

SIGNING IS CONSENT FOR MANDATED HEALTH SERVICES:

MEDICAL EXAMINATION

A medical examination is **REQUIRED** at time of entry to school:

- students new to this district, and students in pre-school or kindergarten.

State mandate specifies that this medical exam be done by the student's own health care provider, with a full report sent to the school.

Please have your health care provider complete the PRIVATE HEALTH CARE PROVIDER MEDICAL EXAMINATION FORM (SH-3) and return it to school.

If your child does not have a "medical home," please understand that he/she will be scheduled for a new entry school medical examination.

Medical examinations are also strongly recommended at the following development stages: pre-adolescence (grades 4-6) and adolescence (grades 7-12). These medical examinations should be done by the child's own health care provider, and will not be done at school.

THIS ALSO SERVES AS NOTICE OF THE OTHER MANDATED PROGRAMS:

TUBERCULOSIS (MANTOUX) TEST

A skin test for tuberculosis is done on all students in kindergarten, in eighth grade, and those entering from another state or country.

SCOLIOSIS SCREENING

A strip to the waist examination is done by the school nurse, the physical education teacher and/or the school physician to determine whether your child's spine is developing straight. This screening is done every other year from 10 to 18 years of age.

HEALTH SCREENINGS

Screenings by the school nurse, as required by the State of New Jersey, include: height, weight, dental, vision, hearing and blood pressure. You will be notified, by a referral form, if your child needs to have an examination by a health professional following these screenings.

Signature of parent/guardian
